Sir:

In accordance with the Applicant's duty to disclose information, which may be material to the examination of this application, the undersigned respectfully requests that the Examiner consider on the merits the document listed on the enclosed Form PTO-1449 (modified) before issuing the next Office Action on the merits.

The document listed on the enclosed Form PTO-1449 (modified) was disclosed and submitted to the USPTO with the IDS filed on November 17, 2010. However, the Examiner issued a first Office Action on January 19, 2011 striking out the foregoing document because he could not find a copy of it to review and consider. It appears that the foregoing document was lost by the USPTO website at the time of transmission when the IDS was filed. Accordingly, a second copy of the foregoing document is enclosed hereto for Examiner's review and consideration.

The filing of this Information Disclosure Statement (IDS) shall not be construed as a representation that a search has been made (37 C.F.R. 1.97(g)), an admission that the information cited is, or is considered to be, material to patentability, or that no other material information exists.

Since no new references are being disclosed at this time, no official fees should be due; and this IDS should be considered on the merits. If the Examiner believes that in order for this IDS to be considered on the merits a fee should be due, then the Examiner is authorized to charge any additional fees which may be required to deposit account no. 12-0415.

The filing of this Information Disclosure Statement shall not be construed as an admission against interest in any manner. (Notice of January 9, 1992, 1135 O.G. 13-25, at 25.)

The person making this statement is the practitioner who signs below on the basis of information supplied by an individual associated with the filing and prosecution of this application (37 C.F.R. § 1.56(c)) and on the basis of information in the practitioner's file.

I hereby certify that this paper (and any enclosure referred to in this paper) is being transmitted electronically to the United States Patent and Trademark Office on January 27, 2011 by

/Ilya Malinskiy/  
(Signature)

Respectfully submitted,

/Brian J. Cash 60546/
